ADAPTATION TIPS

- Works for either short or long distance train routes. In case of long distance routes, choose stops from different countries or cities with unique features and backgrounds.
 - Ex: City A → Countryside B → City C → Country side D
UK → France → Spain → Italy → Switzerland → Germany
- Give each station a special theme, and find the girls accordingly. It brings variation to the Perfect Boy's choices and eventually reveals what he expects in girls.
 - Ex: 'Country girls station', 'City girls station', 'Sexy girls station', 'Seriously looking for a husband station', etc.
- Create a system where the viewers can also vote for who to stay and who to eliminate.
- Use the travelogue aspect of the show, and capture the progress of the relationship between the girls and the Perfect Boy.

Whose boarding ticket will he choose?
