

# Ask My Dad

It is a well known fact that Dads are not always particularly fond of their daughter's boyfriend, especially when things start to get serious.

Meeting your girlfriend's Dad is not something that guys look forward to, either...  
What will her Dad be like? Will he like me?  
How should I tell him that I am in a serious relationship with his daughter?...

At the request of the girlfriend, the program arranges a situation where the unassuming boyfriend meets her 'Dad' for dinner.  
Little does he know that the 'Dad' is a fake checking him out to prepare him for the real thing.
