

Celebrity X-Ray

Celebrities **may look great on the big screen**,
but **what do they look like in private?**

Fake airport metal detectors are set up at various staff only locations like TV and radio stations, or recording studios.

After a long, hard day of work, the celebrities get ready to go home. They remove their make-up, put on their jeans, undo their hair, and are about to leave the studio. BUT, here they are, the nasty “security staff” made up of the program host, a stylist, and a make-up artist, waiting for them at the exit. The celebrities will have no choice but to undergo a spot check.

*What kinds of bags are they carrying?
What's special about them?*

*What kind of clothes do
celebrities wear in private?*

*What kind of make-up
do they use?*

*What's inside the bags
they're carrying?*

*What kind of shoes are they wearing?
How much do they cost?*

*Viewers will get an inside look
at celebrities and a chance to
see them just the way they are!*
